

I graduated in 2002 from London College of Fashion with a 2:1 BA Hons Degree in Hair and Make up for the Performing Arts. Throughout my years in the TV industry I have covered a wide variety of work, from period drama to comedy sketch shows in front of live audiences.

I take immense pleasure in bringing a character to life through wigs, hair, make up and prosthetics and have gained a vast amount of knowledge in my chosen art over the years.

With a rational and professional approach to situations I try to stay enthusiastic and positive throughout Production
